

COVID-19 nationwide decontamination response services

Could your company or premise be exposed to coronavirus?

In these current unprecedented and uncertain times, we have partnered with a Contamination Deep Cleaning service through our managed repair business. Crawford Contractor Connection (CCC), is aimed at clients who may be required to undertake such work to enable the public or the workforce to return to their site(s).

CCC are able to implement:

- **Over 500 biohazard agents**
- **Emergency 4hr response available for key buildings requiring decontamination**
- **Preventative Cleaning – disinfecting services designed to reduce the risk of infection**
- **Decontamination – restoring and cleaning premises in preparation for continued use**
- **Quality Management via our repair advisor team**
- **Transparent detailed invoicing**

If your organisation or facility is exposed to coronavirus, Crawford Contractor Connection, can provide you with a trusted, licensed and insured contractor to clean and restore affected sites in a timely manner and get you back in business. Contractor Connection's decontamination-credentialed contractors offer extensive expertise and are professionally equipped to restore sites affected by coronavirus and other biohazards.

Their nationwide network of contractors is the largest independently managed network in the industry, and each undergoes a rigorous vetting process and is held to the highest standards. Contractor Connection has been a proven solution for more than 20 years, providing peace of mind when it's needed most.
