

AFFORDABLE PROFESSIONAL INSURANCE VALUATIONS

Buildings should always be insured for the amount it would cost to rebuild them. However, fewer than one in ten household properties in the UK are covered correctly.

If you are over-insured you are probably paying too much for your buildings insurance. If you are under-insured, you face a reduced payout in the event of a claim. Insurance claims can be reduced by hundreds of thousands of pounds due to under-insurance.

Getting someone to visit your home to carry out a professional assessment can be time-consuming and very expensive. However, thanks to our partnership with **RebuildCostASSESSMENT.com** we can offer you a reliable low-cost service from a 'Regulated by RICS' (Royal Institution of Chartered Surveyors) organisation.

You'll receive a comprehensive Rebuild Cost Assessment (RCA) report guiding you on how much you should insure your buildings for.

This is a fantastic and affordable online service which can protect your home from the potentially severe consequences of underinsurance.
